

iGET IT

Overview Datasheet

Highlights

- Broad selection of more than 4,000 courses for the world's most widely used MCAD and PLM applications
- High-quality instructional materials including more than 8,000 videos and 2,000 assessments
- Robust learning management system to capture and distribute intellectual property
- User-friendly authoring tools to create custom content and custom courses
- Tools to track individual and group skill levels

iGET IT® is the world's most comprehensive Web-based engineering knowledge management system. *iGET IT* was developed by Tata Technologies to offer online MCAD/PLM training courses for engineers. More than 110,000 engineers in 60 countries have taken advantage of *iGET IT*'s convenience, large course selection, and user-friendly setup.

iGET IT features an expansive array of more than 4,000 MCAD/PLM courses, 8,000 videos, 2,000 assessments, forums, blogs, and tech tips – all indexed by the powerful built-in Google™ search engine. *iGET IT* currently delivers engineering knowledge management to 5,000 enterprise clients such as GE, GM, Ford, Boeing, BAE Systems, UTC, 3M, and Apple Computers.

Training Catalog

Information at your fingertips.

iGET IT offers the most comprehensive library of engineering, manufacturing and PLM skills available. Each *iGET IT* course is software specific, so you get exactly what you need.

iGET IT has a broad range of material for today's major applications including CATIA, Pro/ENGINEER, SolidWorks, Solid Edge, NX, AutoCAD, MSC Software, and Teamcenter.

- Interactive quizzes
- Simulated real-life projects
- Customized learning paths based on skills assessments

Knowledge Management

Create and distribute dynamic courses.

iGET IT courses can be completely customized to fit your needs. You can easily modify a current course or build a new course from the ground up. *iGET IT* has even introduced groundbreaking drag-and-drop technology to make online customization easy. For the first time it's easy to deliver company specific course content to your local team – or to your staff across the globe.

- Create, edit and distribute courses using one integrated package
- Insert graphics, videos and animations
- Choose from thousands of videos and graphics in *iGET IT*'s gallery – or use your own
- Provide employees, suppliers and partners with a single location to access your best practices and courses

BETTER KNOWLEDGE MANAGEMENT BY *iGET IT*
BETTER KNOWLEDGE TRANSFER BY FAR

Global Presence

Tata Technologies serves the major automotive and aerospace OEMs and their suppliers with an integrated workforce of 4,000 professionals in 14 countries, plus near-shore and offshore centers around the world. Contact us at one of our locations below:

North America Headquarters

41050 W. Eleven Mile Road
Novi, Michigan 48375-1302, USA
Tel: +1 248 426 1482

Canada Tel: +1 519 944 0106

Mexico Tel: +52 (871) 7221920

Europe Headquarters

Prospect Way
London Luton Airport
Bedfordshire, LU2 9QH, UK
Tel: +44 (0) 1582 878750

Germany Tel: +49 (0) 711 789 09-0

France Tel: +33 (0)3 88 56 89 00

Ireland Tel: +44 (0) 1179 063420

Netherlands Tel: +31 (0) 30 634 637-0

Asia Pacific Headquarters

25 Rajiv Gandhi Infotech Park
Hinjewadi, Pune 411057, India
Tel: +91 20 6652 9090

Japan Tel: +81 (0) 80 3522 1789

Thailand Tel: +66 2 673 6502/7

International & Asia Pacific Headquarters

5 Shenton Way
UIC Building #22-08
Singapore 068808

Team Management

Manage training with one powerful tool.

For a manager, *i GET IT* is a dream come true. Managers can track group and individual skill levels, assign remedial training, customize courses and even communicate with the team.

i GET IT provides all the tools needed to keep your team effective. When the team looks good, you look good.

- Track scores
- Identify knowledge gaps
- Assess user skills
- Create customized learning paths
- Monitor individual and group usage
- View post-assessments

i GET IT training is available for: NX

Learn to develop a whole new world of design capabilities for the entire NX spectrum of integrated CAD, CAE and CAM functions.

CATIA

Optimize all the stages of the production lifecycle including mechanical design, shape design and styling, product synthesis, equipment and systems engineering, analysis, numerical controls manufacturing, and plant design infrastructure.

SolidWorks

Leverage *i GET IT* for 3D CAD design validation, product data management and product documentation capabilities.

AutoCAD

Learn to design more efficiently and productively with AutoCAD's easy-to-use features, enhanced navigation tools and streamlined user interface.

Autodesk Inventor

Better training to help you produce, validate and document complete digital prototypes using Autodesk Inventor's 3D modeling and mechanical design tools.

Teamcenter

Expand your teams abilities to create,

revise, locate, view, and manage product data within Teamcenter's powerful central database.

Solid Edge

Learn a better way to innovate, reduce errors and collaborate in real time with the dynamic 2D and 3D design features of Solid Edge.

Pro/E

i GET IT helps you boost design quality and reduce development times with the integrated CAD/CAE/CAM solutions within Pro/ENGINEER.

MSC SimOffice

Learn better ways to verify designs in a Microsoft Windows environment with the powerful simulation capabilities of MSC SimOffice.

i GET IT Training Bundles

i GET IT's unique approach is to bundle together everything you need for complete training including:

- In-depth learning content
- Standard assessment(s)
- Downloadable part/project files
- Certificate assessment(s)
- Viewable/printable certificates [upon successful completion]

About Tata Technologies

Tata Technologies is a global leader in Engineering Services Outsourcing (ESO) and Product Development IT services to the global manufacturing industry. Our pragmatic approach to engineering and manufacturing processes deliver best-in-class solutions for PLM, Enterprise Resource Management (ERM) and Application Development and Maintenance (ADM) to the world's leading automotive and aerospace manufacturers and their suppliers.
